ansa - global Q opportunities I ISIN: LU1091585262

Sub-fund of ansa

Management company: Hauck & Aufhäuser Fund Services S.A.

Objectives and investment policy

- The purpose of the fund is investment policy is to achieve the maximum value increase in euro in the long-term while giving due account to the investment risk.
- The sub-fund pursues a global multi asset strategy (stock, cash, bonds and commodity market) geared towards value increases. In order to achieve the investment objectives, an investment of the sub-fund assets in money market instruments, securities, listed standard futures, structured products and liquid assets is planned. For the sub-fund, depending on the assessment of the market situation, up to 100% of the sub-fund assets may be held in one of the above assets within the limits specified by law. Investment in permissible commodity industry assets (up to 30% of the Net Sub-Fund Assets) includes investments in structured products and exchange traded commodities (ETCs). This excludes ETCs with embedded derivatives. Up to 10% of the Net Sub-Fund Assets may be invested in units of investment Funds.
- The fund has no geographic, industry or sector focus.
- The selection of individual securities is made by the fund management. The fund may use derivative transactions to reduce potential losses or to achieve higher capital gains.
- The income remains in the fund and increases the value of the units.
- In principle, you may request the management company to redeem the units on each valuation day.
- However, redemption may be suspended if exceptional circumstances make this appear necessary, taking into account the interests of the investors.
- The fees for the purchase and sale of securities are borne by the fund. They are incurred in addition to the percentages listed under -Costs- and may reduce the fund's return.
- This fund is an actively managed fund that does not follow a benchmark.

Risk and income profile

The following risks do not affect the rating directly, but may however be of importance to the fund:

- The fund ansa - global Q opportunities has been categorized 4 because its net asset value shows its share price fluctuates noticeably and therefore both risks of loss and opportunities for gain are not insignificantly pronounced.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- Even a fund classified in category 1 is not a completely risk-free investment.
- A detailed description of the risks can be found in the section „GENERAL RISK INFORMATION“ of the sales prospectus.
- Operational Risk: The Fund may be exposed to significant operational risks, such as processing errors, misconduct, communications failures or misunderstanding on the part of those involved in fund management and administration.
- Derivate Risk: Derivatives, especially when used to seek higher gains or to speculate on price movements, can expose the Fund to additional risk of loss.
- Counterparty Risk: The Fund's transactions with counterparties may be significant, increasing its exposure to losses if a counterparty becomes unable to meet its obligations to the Fund.
- Issuer Risk: Bonds owned by the Fund may lose some or all of their value if the financial health of the bonds issuers declines or fails.

Costs

The ongoing management and custody of the fund's assets and the marketing of fund units are financed through fees and other costs. Costs incurred reduce the investor's opportunities to obtain income.
